PERSONAL PROJECTS

ONLINE NEWS PORTAL

"Corporate News Portal" is a comprehensive news platform offering a hassle-free user experience. It provides up-to-date news across various genres, including entertainment, national, international, business, and sports, without any cost. Users can give feedback and suggestions. Admin exclusively manages news content, allowing additions, updates, and deletions. This modern approach enables media houses to swiftly connect with viewers, outpacing traditional print media.

Used Technology -

Front-End : HTML , CSS Back-End : .Net Database : SQL

SHIVAJI UNIVERSITY RESEARCH PAPERS

"Shivaji University Research Papers serves as a valuable resource for accessing information on academic papers, books, and university departments. This platform enables users to explore a vast repository of research materials, enhancing their knowledge base. By providing a centralized hub for scholarly resources, students and researchers can access a wealth of information effortlessly.

Used Technology -

Front-End : HTML , CSS ,js Back-End : python Database : SQL

STRENGTH'S

- Communication Skills
- Responsibility
- Time management
- Leadership

LEISURE ACTIVITIES

- Playing Football
- Listening Music
- Travelling

LANGUAGES

- Marathi
(Fluent)
- Hindi
(conversational)
- English
(Professional Working Proficiency)

HEALTH INSURANCE PRICE PREDICTION

This project utilizes machine learning techniques, including linear regression and random forest regression, to predict health insurance costs accurately. Through comprehensive data collection, preprocessing, and exploratory analysis, influential features are identified. Robust models are constructed, evaluated using metrics like MAE and MSE, and fine-tuned for optimal performance. The results provide actionable insights for healthcare and insurance stakeholders, empowering them with informed decision-making capabilities.

Used Technology -

Front-End : HTML , CSS **Back-End :** Python , ML

CO - CURRICULAR ACTIVITIES

• **Poster Presentation :**

Awareness of Fastag cashless toll payments for journeys.

• **Workshop :**

Embarked on an enlightening Machine Learning journey with visionary Dr. D. T. Shirke, Shivji University's Vice-Chancellor
